Frontend Engineer with 2.5+ years of experience developing scalable web applications using modern JavaScript and TypeScript. Strong background in component-driven architecture and API integration for enterprise systems. Currently specializing in React.js and Tailwind CSS to deliver responsive and high-performance user interfaces..

SKILLS

Programming Languages	Javascript-ES6, Typescript, JAVA, CSS, PHP
Frameworks/Library	React.Js, Tailwind CSS, DaisyUI,Vue.Js, Vuetify, JQuery, Ajax, Axios, Bootstrap 5
State Management	Redux,Context API, Pinia (Vue.Js)
Backend and Database	Laravel, Eloquent ORM, Query Builder, MySQL
Development Tool	Git, Postman, JIRA, Visual Studio Code, SonarQube

PROFESSIONAL EXPERIENCE

April, 2024 - Present	Software Engineer-Frontend Developer, ANWAR GROUP OF INDUSTRY- ANWAR TECHNOLOGY, Dhaka - 1000 ➤ Designed and developed reusable component-based multi-step verification and approval workflows, improving process control efficiency by 30–35%. ➤ Built role and designation-based access control modules,improving access security and workflow discipline. ➤ Implemented Chat system and contextual comments & internal communication features, reducing miscommunication and improving collaboration speed by 70–80%. ➤ Integrated Socket.IO across project-specific modules to enable real-time, bidirectional, event-driven communication between clients and servers. ➤ Translated Figma design into pixel-perfect, responsive, and production-ready user interfaces. ➤ Key Projects Contributed To : ➤ QuickOps (Cloud Platform) – Built application marketplace and project deployment workflows. ➤ AmarDoc (Document Management) – Built reusable multi-level approval verification system. ➤ ERP System – Built inventory workflows and hierarchy-based verification and approval modules.
April, 2023 - March, 2024	Software Engineer, DARAZ BANGLADESH LTD.-ALIBABA GROUP, Dhaka 1212 ➤ Implemented lunch subscription system for Daraz Kitchen, improve meal enrollment & subscription efficiency by 30–35%. ➤ Integrated bar-code scanner based lunch verification system, enabling faster and authorized meal check-ins reducing manual verification time by 90%. ➤ Implemented operational charts to provide real time log monitoring improving reporting efficiency. ➤ Designed and built product tracking modules in Daraz ERP system, improving inventory monitoring, and operational tracking by 30–40%. ➤ Built automated monthly lunch reporting system, enabling faster payroll-based meal cost deductions and reducing manual reporting effort by 35%. ➤ Performed UAT, debugging, and pre-release validation for internal used for across 4 Asian countries
October, 2022 - February, 2023	Amacom Soft Junior Software Engineer, (REMOTE), ➤ Create simple, interactive elements on web pages using jQuery and Ajax. ➤ Contribute to the responsive design and layout of user interfaces. ➤ Participate UAT, debugging sessions to help identify and resolve minor code issues.
March, 2021 - July, 2021	Kodeeo Limited Intern, HOUSE-15,ROAD-10/A, SECTOR-11, Uttara, Dhaka-1230 ➤ Learned backend development,PHP,Laravel & contributed to the creation of web applications. ➤ Developed my skills in dynamic and responsive user interfaces with jQuery, Ajax, and Bootstrap for front-end development. ➤ Learned database designing, Eloquent Model, and MySql

PROJETS

REACT PROJECT SHOWCASE

PERSONAL REACT PROJECTS

 [Visit Platform](#)

A centralized platform where i showcase all my personal React js frontend projects, demonstrating component-based architecture, routing, responsive UI design, and clean project structuring. The platform highlights real-world React applications with live demos and structured presentation.

QUICKOPS

CLOUD PROJECT (OFFICE PROJECT)

 [Quick Look](#)

QuickOps is a cloud-native platform that enables businesses to build, deploy, and scale applications effortlessly with automated Kubernetes management, multi-cloud compatibility, CI/CD integration, and real-time monitoring. It boosts productivity, reduces operational costs, and ensures enterprise-level security for fast and reliable application delivery.

AMARDOC

DOCUMENT MANAGEMENT SYSTEM (OFFICE PROJECT)

 [Quick Look](#)

AmarDoc is an advanced Document Management System with LLM-powered OCR, delivering high-accuracy text extraction in both Bangla and English, seamless API integration, and secure digital document processing for any document type. It enhances efficiency, reduces costs, improves data accuracy, and provides scalable, compliant, and secure document storage with dashboard analytics for streamlined workflow management.

ENTERPRISE RESOURCE PLANNING

ERP (OFFICE PROJECT)

 [Quick Look](#)

ERP system designed to manage all in-house operations across multiple departments, including Accounts and Finance, Building Materials, and Anwar Cement Sheet divisions.

DARAZ KITCHEN MANAGEMENT

OFFICE PROJECT

 [Quick Look](#)

Daraz Kitchen management system where Daraz employees can subscribe for their breakfast and lunch. Admin can keep track of their expense, Make Purchase Requests, track meal cooking schedules, and generate reports based on many criteria.

DARAZ OFFICE MANAGEMENT

OFFICE PROJECT

 [Quick Look](#)

Daraz Office management system as like inventory management where Daraz employees (role : admin, Hub in charge, Warehouse in charge, etc.) are responsible for making Purchase requests for warehouse and office product requisition for Daraz's various hubs across the country. Admin can also keep track of their expense, Make Purchase Requests, generate reports based on many criteria.

[Vue 3\(Com API\)](#) [Vuex](#) [Module decorator](#) [Typescript](#) [Laravel 8](#) [Bootstrap](#)

EUDCATION

2016 - 2021	BSc. in Computer Science and Engineering, IUBAT University, Dhaka	CGPA : 3.31/4.00
2013 - 2015	HSC, Uttara High School and College, Uttara, Dhaka	GPA : 4.42/5.00
2012 - 2013	SSC, Premier Ideal High School, Mymensingh	GPA : 4.00/5.00
