Operating Systems	Mac OS X, Windows

PROFESSIONAL EXPERIENCE

April, 2024 -
Present

Software Engineer-Frontend Developer, ANWAR GROUP OF INDUSTRY- ANWAR TECHNOLOGY, Dhaka - 1000

Projects i have been working on-

- Designed and developed scalable, component-based frontend architecture for enterprise cloud and document management platforms.
- Integrated RESTful APIs and implemented dynamic data rendering using TypeScript.
- Built reusable UI components and optimized performance for production-scale applications.
- Implemented role-based access control and permission verification systems across multiple modules.
- Collaborated with backend teams to ensure clean API contracts and smooth data flow.
- Followed Figma design specifications to deliver pixel-perfect, responsive UI.
- **Key Platforms Contributed To :**
 - **QuickOps (Cloud Platform)** – Application marketplace and Project Deployment system
 - **AmarDoc (Document Management System)** – Multi-level approval and subscription system
 - **ERP System** – Inventory and role-based management modules

Modern JavaScript Framework REST APIs Typescript NATS Git JIRA Component-based Architecture

April, 2023 -
March, 2024

Software Engineer, DARAZ BANGLADESH LTD.-ALIBABA GROUP, Dhaka 1212

- Developed and maintained Daraz in-house project module for 4 Asian countries.
- Implemented new features in the existing project under the guidance of senior team members.
- Contributed to the creation and documentation of RESTful APIs ,debugging code.
- Performing UAT, maintaining in-house software before deployment which is using in 4 Asian countries.

Laravel Vue.js Axios Typescript JQuery Git Bootstrap 5

October, 2022 -
February, 2023

Amacom Soft | Junior Software Engineer, (REMOTE),

- Collaborate with senior team members through virtual channels to tackle basic feature development tasks.
- Create simple, interactive elements on web pages using jQuery and Ajax.
- Contribute to the design and layout of user interfaces with Bootstrap, focusing on responsiveness and usability.
- Participate in remote debugging sessions to help identify and resolve minor code issues, contributing to the stability and reliability of our applications

Laravel JQuery Ajax Bootstrap Git

March, 2021 -
July, 2021

Kodeeo Limited | Intern, HOUSE-15,ROAD-10/A, SECTOR-11, Uttara, Dhaka-1230

- Developed into the fundamentals of backend development, mastering of PHP and Laravel as I contributed to the creation of web applications and features.
- Developed my skills in dynamic and responsive user interfaces with jQuery, Ajax, and Bootstrap for front-end development.
- Learned database designing, Eloquent Model, and MySQL

Laravel Eloquent ORM OOP

PROJETS

REACT PROJECT SHOWCASE

PERSONAL REACT PROJECTS

[Visit Platform](#)

A centralized platform where i showcase all my personal React js frontend projects, demonstrating component-based architecture, routing, responsive UI design, and clean project structuring. The platform highlights real-world React applications with live demos and structured presentation.

React Js Tailwind CSS JavaScript Responsive UI SPA Application

QUICKOPS

CLOUD PROJECT (OFFICE PROJECT)

[Quick Look](#)

QuickOps is a cloud-native platform that enables businesses to build, deploy, and scale applications effortlessly with automated Kubernetes management, multi-cloud compatibility, CI/CD integration, and real-time monitoring. It boosts productivity, reduces operational costs, and ensures enterprise-level security for fast and reliable application delivery.

Vue.js Pinia Vuetify Typescript

AMARDOC

DOCUMENT MANAGEMENT SYSTEM (OFFICE PROJECT)

[Quick Look](#)

AmarDoc is an advanced Document Management System with LLM-powered OCR, delivering high-accuracy text extraction in both Bangla and English, seamless API integration, and secure digital document processing for any document type. It enhances efficiency, reduces costs, improves data accuracy, and provides scalable, compliant, and secure document storage with dashboard analytics for streamlined workflow management.

Vue.js Pinia Vuetify Typescript

ENTERPRISE RESOURCE PLANNING

ERP (OFFICE PROJECT)

[Quick Look](#)

ERP system designed to manage all in-house operations across multiple departments, including Accounts and Finance, Building Materials, and Anwar Cement Sheet divisions.

Vue.js Pinia Vuetify Typescript

DARAZ KITCHEN MANAGEMENT

OFFICE PROJECT

[Quick Look](#)

Daraz Kitchen management system where Daraz employees can subscribe for their breakfast and lunch. Admin can keep track of their expense, Make Purchase Requests, track meal cooking schedules, and generate reports based on many criteria.

Laravel 8 Vue 3(Com API) Vuex Module decorator Typescript Bootstrap
